

MADE IN INDIA, TRUSTED GLOBALLY

Advanced HotMelt Technology

Smart hot melt dispensing systems trusted by manufacturers across packaging, printing, and hygiene industries.

EXPLORE PRODUCTS

10+ INDUSTRIES SERVED

99.2% UPTIME RATE

100+ UNITS DEPLOYED

CONSISTENT ADHESIVE FLOW
- Optimized precision delivery

EASY INTEGRATION
- Easily adaptable to any production lines

MULTI-HEAD
- Multi-head configuration

LOW MAINTENANCE
Advanced Filtration System

INNOVATING GLOBAL SOLUTIONS, PROVEN RESULTS

Maximize Efficiency with Advanced Adhesive Control

Reduce glue consumption, prevent material degradation, and lower operational overhead with smart, uniform **heating technology** designed for continuous industrial output.

Advanced HotMelt Systems Built for Productivity and Reliability

MeltX is specialize in high-performance HotMelt systems that solve the **two biggest problems in the industry—adhesive waste and machine downtime**. Our smart dispensing technology ensures micron-level accuracy, significantly lowering your total cost of ownership. When you choose Meltx, you are choosing a partner dedicated to keeping your operations lean and your output at its peak.

ADVANTAGE MELTX

Why Industry Leaders Choose Our Systems

**FAST-HEAT TECH**
Operational melting temperature achieved in under 4 minutes to eliminate startup delays.

**PRECISION CONTROL**
Flawless flow tracking with $\pm 0.1\text{g/min}$ accuracy for complete adhesive control.

**ZERO-CHAR DESIGN**
Advanced tank insulation elements prevent degradation and charcoal clogs.

**RAPID HUB SUPPORT**
On-demand technical assistance with direct spare component stock out of Faridabad.

✓ ✓ INDUSTRY 4.0 READY

**ROBOTIC ACCURACY**

- Precision-engineered robot arms

**SYSTEM FLEXIBILITY**

- Easily adaptable to different production lines

**REMOTE MONITORING**

- Real-time process tracking & analytics

**ECO-FRIENDLY**

- Reduced adhesive waste & lower energy consumption
